

HIGH PERFORMANCE CABINS

# 60 YEARS OF EXPERIENCE AND INNOVATION IN CONSTRUCTING CABINS

Long-standing know-how allows us to address our customers' demands as well as to transfer them into the cabins - a vital ingredient of customer satisfaction. Our competent and skilled project managers and designers serve our customers whereby they focus on detailed implementation within our reliable and professional structures. Thereby, our customers receive high-quality cabins tailor-made to their requirements.

## LOCHMANN CABINE S.R.L. THE COMPANY

Lochmann Cabine S.r.l. has been manufacturing cabs since 1983. Ever since quality and innovation have been cornerstones of the company. Our experience is highly appreciated by our customers as we know the needs of the market.

Our strength lies in the development and production of cabins for work equipment of various sectors. The wide range of products covers cabins for agricultural machinery, cabins for earth-moving equipment and municipal equipment as well as cabins for industrial vehicles and special vehicles.

# A SUITABLE **CABIN** FOR EVERY DEMAND.

Lochmann's cabins are worldwide in use within various sectors.  
Thereby, the highest quality requirements for material and technology are fulfilled.

## EXPERIENCE INNOVATION CONTINUITY

Our long-standing experience combined with the steady urge for innovation within the field of cabin construction is what our customers highly appreciate. According to the motto "constant is only change" we consider our everyday work and realize new ideas. We do that based on our outstanding experience. Lochmann's continuity in following this motto pays off and defines what we are today:  
Market leader of the cabin construction industry.

## HISTORY

1949

Ernst Lochmann starts in his forge in Tisens/Tesimo the handicraft production of trailers, winches, roofs for tractors and sprayers etc.

1960

Transfer of the production to the new plant in Vilpian/Vilpiano with the beginning of the industrialization of the production.

1983

The eldest son, Gerhard Lochmann, starts the LOCHMANN CABINE S.r.l. and specializes the firm target into tractor's cabins.

2013

Gerhard Lochmann passes the company LOCHMANN CABINE S.r.l. to his son Stefan.

## PRECISION & COMMUNICATION

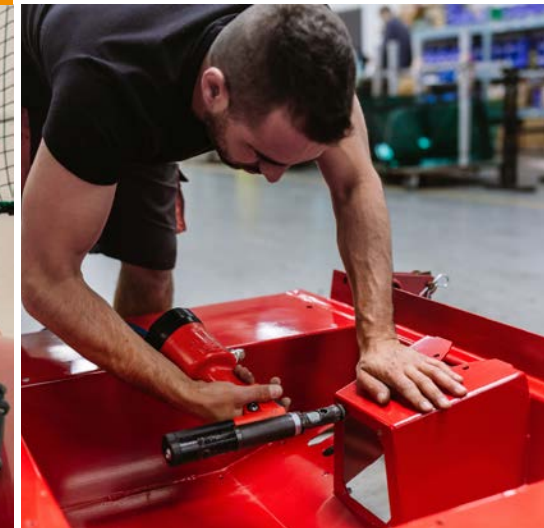

Together with the customer we carefully define the requirements. Thereby, our strengths are the open communication with our customers, the understanding of their needs as well as the knowledge of how the project can be realized within our structures. Furthermore, we are constantly at our customer's side to provide them with advice to be able to reach the best possible solutions for every single customer.

## DEVELOPMENT PROCESS

A project plan including clear goals and deadlines is created and serves for further communication purposes and as a framework for the customer. Thereby, the customer is always up-to-date with the current status of his project. At Lochmann's the customer is in the middle instead of just on the sidelines.

## BASIC CABIN

## PLUG AND PLAY

## AN APPROPRIATE CABIN SYSTEM FOR EVERY NEED

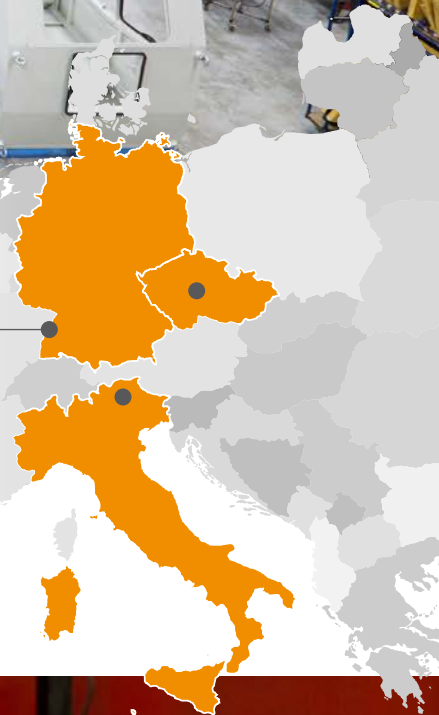

Together with our customers we define the concrete scope of supply of our products. The several variants range from industrially produced cabin frames including certified glazing to completely equipped “Plug and Play” cabins. A huge assortment of convenient seats, steering units, armrests, joysticks and control elements are offered by several reputable manufacturers. Besides the installation of the cabin electronic assembly and control system, we support our customers by their choice of the components and install them in series and with the highest quality.

### KML – CABINS “MADE IN GERMANY”

KML IS ONE OF THE TECHNOLOGY LEADERS OF THE DEVELOPMENT AND PRODUCTION OF SPECIAL CABINS.

Together with Dr Martin Herrenknecht, founder and CEO of Herrenknecht AG, we have taken over the special cabins producer from Lahr located at the Schwarzwald in 2017. KML manufactures special cabins in a fully integrated production plant with 90 employees for Europe and worldwide.
